

Let Us Share Our Angelic Stories and Holiday Greetings

During the holidays angels can be seen everywhere. Their presence represents peace and joy.

The APS team works diligently to bring peace of mind to our clients all year long. We help them find joy in new living situations by creating smooth transitions and our customers have even referred to us as their "angels" from time to time.

Over the past few years we have worked with the Mary Queen of Angels Assisted Living community helping clients by creating comfortable new homes for the next stage of their lives.

Angie Durr and Lyndsey Gower from the Mary Queen of Angels staff are shown with our angelic team. The community is always so friendly and helpful to our staff and we wanted to pay tribute to them during this season of giving and hope.

Here are a couple of client stories we want to share with you:

Catherine volunteered at the community for years, and then chose Mary Queen of Angels for her new home when she decided to downsize. Catherine is shown here with Deborah, Kim, Towanda and Sara Beth from APS, as the finishing touches were made on her new apartment.

Frank and Isabel also worked with the APS team when they moved to the Mary Queen of Angels community. The APS team of Deborah, Towanda, Kim and Anita are pictured here with Frank, the fifth angel for this grouping, showing off his new lift chair. Isabel was truly an angel during this tough transition from their home of 40+ years and we love to visit with them whenever we are in the community.

The APS team believes that happy customers lead us to serve more clients that need our services. We have a website full of comments, testimonials, photographs and videos, where our customers have praised the relationship they have had with our team. These represent a wide range of projects from moves management to helping settle into their new home. Click [here](#) to learn more.

Best wishes for a wonderful holiday season to all our clients, friends and the community of businesses that work so hard to assist our aging populace. We also wish you many happy days in the coming new year.

Sara Beth and the APS Team
