

AGING **IN** PLACE TRANSITION SERVICES

We're On Your Move

Enjoy a happy and safe holiday season!

Please Santa – no more stuff! T’was the Night before Christmas and stockings are hung by the tree.... what will St. Nick bring Mom and Daddy?

After years of accumulating and seasons of gifts, this holiday don't add to the piles of unused stuff! Consider giving the gift of "space" instead, and help simplify their lives. As a team of professional downsizers and aging in place specialists, we can help make their home safer and less cluttered. We work strategically to sift through their treasures and keep those that matter most. APS takes the emotional and physically overwhelming process and turns it into a joyful process. Happy gift giving! Contact us to schedule a complimentary consultation.

Before you pack up those old holiday decorations

Is your attic full of Christmas past? Do you feel overwhelmed by the amount of holiday items you store each year? This is the time to discard the outdated and broken decorations. The APS Team can help with decluttering and discarding for our clients.

Many old holiday dishes and decorations may finally need to be retired. We have interior design experience as well as our organization teams. We would be glad to consult with you or your caregiver for our solutions to a stress-free holiday. Just give the APS Team a call.

Spreading Holiday Cheer!

The APS Team was busy recently delivering holiday gift bags to our clients and communities. Since we are expecting to "stay at home" more this year, we gave cocoa with chocolate spoons, marshmallows and Walkers shortbread cookies as well as lots of extra chocolate to munch on. Happy holidays everyone!
